

FLOATING

— SERIES —

The Floating Series is an exciting alternative to the traditional “plaque on plinth” approach. Functional, cost effective, easy to install and low maintenance – The Floating Series will compliment and enhance any ashes garden.

The Floating Series can be attached to a wall using fixings or a base can be secured into the ground. The unique shape, bespoke design and flexibility of installation location allows this plaque to revitalise underused areas and increase specialised memorial options.

GUM LEAF DESIGN

This original floating series design is inspired by the shape of a gum leaf, a traditional Australian symbol which we can all relate to. By using modern materials and production methods, this design is fresh and modern at the same time. The bronze leaf elegantly merges nature with man-made. The leaf beautifully compliments a flowerbed or a wall covered in vines allowing the memorial to mimic nature.

FLORA DESIGNS

With a range of floral designs from native Australian flowers such as the Sturt Desert Pea to traditional and elegant Roses, there is a design to suit any need. These designs can be used to create stunning native gardens or rejuvenate existing memorial sections.

Frangipani

Roses

Tulips
