

# PUBLIC ARTWORK

---

*YOUR PROJECT, OUR VISION*

Our designers at Everlon will assist your team to create bespoke, innovative and meaningful memorial options for your new or existing memorialisation projects. At Everlon, research, design, development and planning is our expertise. So whether it's a unique statue, sculpture, artwork or cemetery design, our team can help you from conceptualisation to installation.

# PUBLIC ARTWORK

Everlon believes memorialisation is more than a name and date upon a plaque. By creating a memorial or artwork that synergises with the landscape, it will complement your existing section and enhance the space. Please contact our office to discuss your vision with our experienced team and let us turn your vision into a reality.

## 1. IDEA GENERATION

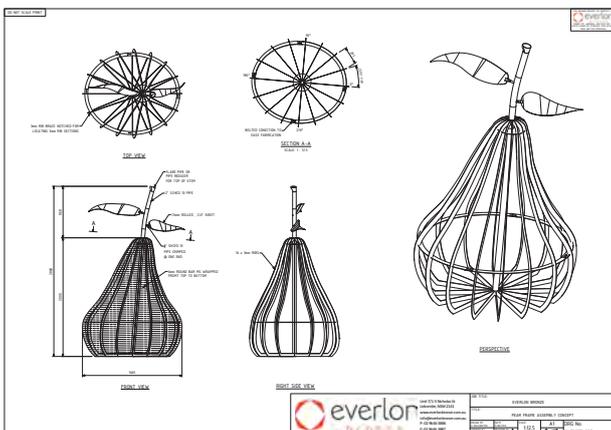

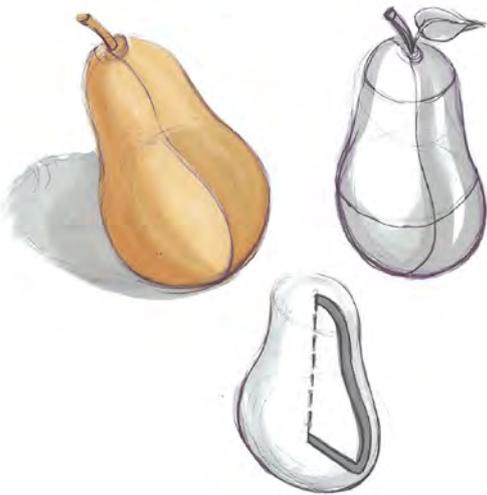

A consultation will occur to determine the theme, visual styling and the clients requirements. Initial concepts will be produced and presented.

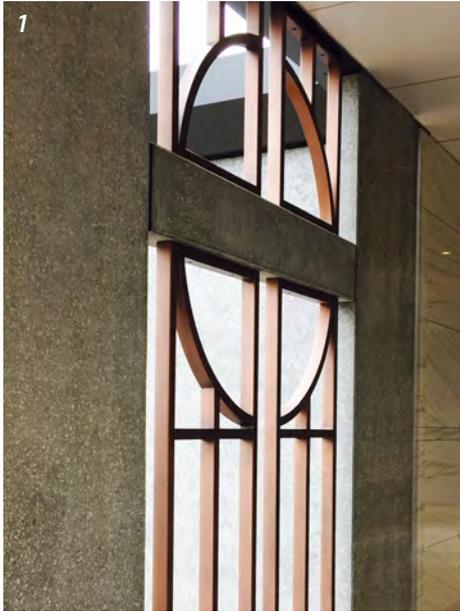

## 2. DEVELOPMENT

Research will be undertaken regarding the manufacturing process and materials. The concepts will then be finalised, developed and priced.

## 3. PRODUCTION

With a high level of craftsmanship and precision, the final product will be produced, delivered and installed.
